

Company **ZVL AUTO spol. s r.o.**(www.zvlauto.sk) seated in Prešov continually implements and extends production of tapered roller bearings, foundation of which can be dated back to 1959.

More than 85% of our production is for export. We established our brand on sophisticated markets such as German, French, American and other markets of European Union.

We are looking for partnership, joint venture and offering sale of our machines. So we are talking about:

1. Toolingshop

We have, for example, machines for machining of rotary parts. (Machine SEL 101, ANK 150 and 160 – 6 spindle machine....., grinding machine, stamping machine)

2. Toolroom

3. Pressroom

If you are interested in any services and products of our company, please contact us via e-mail: rusin@zvlauto.sk or fax number +421/51/7731056.

Best regards,

Dipl. Ing. Dávid Rušin / manager of purchasing dept.
